

Elections Essentials Workshop

The requirements for conducting officer elections in compliance with the LMRDA are rigorous. They are far more rigorous than for other types of elections including public elections.

Every year hundreds of union elections are challenged. Between 150 and 200 of those challenged elections end up being investigated by the OLMS. Most are unions who have never before had an election problem or been the subject of an OLMS investigation.

Why is it so hard to conduct an election that complies with the LMRDA? What can you do to minimize your risks, if an election is challenged?

We have the expertise and experience to walk you through the election process and provide you with practical guidance on how to organize, plan, and conduct an election that minimizes the challenge risk.

BallotPoint's Election Essentials Workshop provides you with the practical information, tools and resources needed to ...

Properly plan and conduct an election

- Election committee duties and responsibilities
- Constitution and bylaws requirements
- Updating your mailing list
- Nomination procedures
- Ballot preparation
- Election notice requirements
- Campaign rules
- Conducting the election
- Post-election tasks
- Handling election challenges

Survive an OLMS election investigation
